

Nibbling on her bottom lip,
 her grabbing my head and
 pulling me into her,
 French kissing that starts
 slowly and escalates.
 Kissing her on the neck from
 behind, being kissed for no
 reason.
 I can go on but I will wait for
 another post. -jerrjerr

What Makes the Hottest Kiss?

Looking him square in the
 eye with that I'm coming to
 get you look. Softly kissing
 his bottom lip, sucking in his
 breath as I giggle a sexy
 giggle with electricity
 between us. Yeah that. -Tgirl

In the heat of the
 moment...when you are
 kissing hard and frantic, you
 just want to devour him
 through his mouth...THAT
 kind of kiss. - MidwestGirl

Best Summer Ever!

Most of my summers were spent passing by things
 that my dad considered too dangerous to stop and see.
 The only items I have as a memento are pictures of
 where we stopped at the side of the road by each state
 sign. We even made the long trip to Niagara Falls when
 I was a kid. Drove all the way up there, which took a
 couple of days, then we stopped about 30 minutes and
 looked at the falls, turned around and drove home.
 That was what most of my summer vacations were like.

I didn't realize it at the time but my best summer was
 spent visiting with my grandparents. They lived in a
 very small town with not much to do so as a teenager I
 thought I would never make it. Looking back though, it
 was great fun sitting in the backyard watching my
 grandfather whittle wood. Sitting in the kitchen
 watching my grandmother make biscuits from scratch.
 Running around outside on cool evenings catching
 lightening bugs to put in a jar. Such simple joys that
 can bring a smile to my face, even after all these years.

Dress to Impress

#1 Sometimes More is Less

Seduction is not always about putting it all out there. The fine art of revealing while concealing can bring most men to their knees. When one has confidence in what they choose to wear, that is the ultimate aphrodisiac.

Next time you're getting ready for bed, a simple thin tee or see-through shirt can be quite effective. Make sure that the fabric will cling ever so slightly to the shape of your body. He will be invited to gaze without actually seeing it all and barely be able to contain his excitement when he grabs you into his arms.

#2 Let Loose

There is a fine line between loose fitting and ill fitting. Loosely draped kimonos and robes in silky fabrics can provide the desired effect. Those soft, supple fabrics will build the anticipation as he longs to touch your skin underneath.

A soft robe wrapped around your body that is a bit short will allow the occasional sneak peek. This can provide quite a distraction for the man who is engrossed in the latest sports season.

#3 Leather and Lace

Not in the mood for subtle? Then you can't get any better than this to let him know you have something sexy in mind.

What better way to add that hint of bad girl than to bring out the leather. A fitted skirt or jacket is the perfect complement to soft lace camisoles or panties. Pick out some really sexy lingerie in bold colors, like red or black. Don't forget the perfect accessory of the bend and pout to take full advantage of his attention.

Pineapple Cooler

From Country Living

- 1 large (about 4 pounds) fresh pineapple
- 1 1/4 cup(s) sugar
- 11 sprig(s) fresh lavender, rosemary, or lemon verbena
- 1/4 cup(s) fresh lemon juice

1. Cut the peel from the pineapple, remove the core, and cut the fruit into 1-inch pieces.
2. Place the fruit in a food processor fitted with a metal blade and pulse until the pineapple is crushed but not pureed. Transfer to a large nonreactive pot, add the sugar, 4 cups water, and 3 herb sprigs.
3. Bring to a simmer over medium-high heat. Reduce heat to medium-low and cook for 15 minutes. Strain the mixture through a fine mesh sieve.
4. Gently press the solids to extract the juice. Cool and stir in the lemon juice. Serve over ice garnished with the remaining herb sprigs.
